

Golf Simulator Installation Checklist

Tick off each step as you set up your enclosure, launch monitor and projector. Placement figures come from the makers' manuals.

Before delivery

- | | |
|--|--|
| ☐ Room measured and confirmed with the room measuring checklist | ☐ Software chosen and any required plan noted (e.g. GSPro needs Rapsodo Premium or Bushnell Gold) |
| ☐ Launch monitor placement confirmed in the owner's manual for your exact model | ☐ PC, tablet or phone meets the software's published system requirements |
| ☐ Projector throw distance worked out from your screen width and throw ratio | ☐ Clear path for enclosure boxes; helper booked for frame assembly |

Enclosure, screen and mat

- | | |
|---|--|
| ☐ Frame assembled square and level, per the kit instructions | ☐ Mat placed so the ball sits where the launch monitor manual specifies |
| ☐ Impact screen tensioned with the maker's fasteners; gap left between screen and wall | ☐ Golfer's swing zone clear of walls, lights and ceiling for every user |
| ☐ Side and top netting or padding fitted for mishits | |

Launch monitor and projector

- | | |
|---|--|
| ☐ Unit placed at the maker distance (Garmin R10: 6–8 ft behind the ball; Mevo Gen2: 7–9 ft) or beside the ball as specified | ☐ Radar kept away from fans, fluorescent lights and HVAC (FlightScope guidance) |
| ☐ Exact unit-to-tee distance entered in the app where required (Garmin R10 manual) | ☐ Projector mounted at the calculated distance, image squared to the screen, keystone minimized |
| ☐ Markers or approved balls ready where the maker requires them (Mevo Gen2: aluminum stickers or Titleist RCT for indoor spin) | ☐ Cables secured and routed away from the hitting area |

First session

- | | |
|--|--|
| ☐ Firmware and apps updated | ☐ Check every user's driver swing clearance one more time |
| ☐ Slow wedge shots first, then full swings once readings are consistent | ☐ Save receipts and warranty dates; note plan renewal dates |

YardageBay checklist, 2026. Figures quoted are from the sources listed; always follow the manual for your exact model. yardagebay.com/tools/checklists/installation-checklist/
